First published in 1945, Journal of Clinical Pathology is a core publication for workers in all general clinical pathology. Published monthly, it features high quality leaders, original papers, and short reports.

Research areas covered are: histopathology; virology; haematology; microbiology, cytopathology; chemical pathology, molecular pathology, forensic pathology; dermatopathology; neuropathology; and immunopathology.

The image representing chemical pathology (biochemical image) is published with the kind permission of the Swiss Institute of Bioinformatics (copyright 2004 Swiss Institute of Bioinformatics, Geneva, Switzerland). Courtesy of Amersham Biosciences.
