President-Elect: Sir Robert Williams
Chairman of Council: A. C. Hunt
Honorary Secretary: G. W. Pennington
Honorary Treasurer: J. Burston
Meetings Secretary: Rosalinde Hurley

COMMUNICATIONS Papers submitted for publication should be sent in duplicate to the Editor, *Journal of Clinical Pathology*, BMA House, Tavistock Square, London, WC1H 9JR. They should be in double-spaced typewriting on one side of the paper only. On the paper the name of the author should appear with initials (or distinguishing Christian name) only, and the name and address of the laboratory where the work was performed. A definition of the position held by each of the authors in the hospital or laboratory should be stated in a covering letter to the Editor. All papers with joint authorship should be accompanied by the signatures of all the authors. Results should not be shown as both tables and graphs.

ACKNOWLEDGMENT A stamped addressed postcard should be returned to the author as acknowledgment of receipt of the manuscript. Overseas authors should enclose international reply paid coupons.

ILLUSTRATIONS Diagrams should be drawn in Indian ink on white paper, Bristol board, or blue-squared paper. The legends for illustrations should be typed on a separate sheet. Photographs and photomicrographs should be on glossy paper, unmounted.

CHEMICAL FORMULAE should as far as possible be written in a single horizontal line.

ABBREVIATIONS In general, symbols and abbreviations should be those used by the *Biochemical Journal*.

SI UNITS The units in which the author's work was measured should be cited first followed by either the traditional units if SI units were used or by SI units if traditional units were used. Such conversion is the responsibility of the author. In the tables a conversion factor should be added as a footnote. Authors are referred to *J. clin. Path.*, 27, 590-597.

ETHICS The critical assessment of papers submitted will include ethical considerations. Authors are referred to publications on ethics of human experimentation by the Medical Research Council in Britain and to the code of ethics of the World Medical Association known as the Declaration of Helsinki (see *Brit. med. J.*, 1964, 2, 177).

REFERENCES These should be given in the text thus: Jones and Smith (1970). If there are more than two authors they should be cited as Jones *et al.* (1970) even the first time that they appear. The list of references

should be typed in double spacing and in alphabetical order on a separate sheet. Such references should give the author's name, initials, year of publication in brackets, the title of the article quoted, *the full name of the journal* in which the article appeared, the volume number in arabic numerals followed by the numbers of the first and last pages of the article.

REPRINTS Twenty-five reprints will be supplied free of charge. Further reprints will be available on payment of the necessary costs; the number of reprints required should be sent to the Publishing Manager on the form provided with the proofs.

NOTICE TO ADVERTISERS Applications for advertisement space and for rates should be addressed to the Advertisement Manager, *Journal of Clinical Pathology*, BMA House, Tavistock Square, London, WC1H 9JR.

NOTICE TO SUBSCRIBERS The *Journal of Clinical Pathology* is published monthly. From January 1979 the annual subscription rates including postage by surface mail will be £28 in the UK and the Republic of Ireland and US\$70.50 in all countries overseas. Payment for overseas subscriptions should be made in US dollars, ie, US\$70.50, or in your national currency based on the prevailing exchange rate to the US dollar of that currency, payable to the British Medical Association. Orders can also be placed locally with any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders, with or without payment, can also be sent to *British Medical Journal*, 1172 Commonwealth Avenue, Boston, Mass. 02134. All enquiries, however, must be addressed to the Publisher in London.) All enquiries regarding air mail rates and single copies already published should be addressed to the Publisher in London.

COPYRIGHT © 1978 *Journal of Clinical Pathology*. This publication is copyright under the Berne Convention and the International Copyright Convention. All rights reserved. Apart from any relaxations permitted under national copyright laws, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means without the prior permission of the copyright owners. Permission is not, however, required to copy abstracts of papers or of articles on condition that a full reference to the source is shown. Multiple copying of the contents of the publication without permission is always illegal.

The November 1978 Issue

THE NOVEMBER 1978 ISSUE CONTAINS THE FOLLOWING PAPERS

- Morphology of lymphatic cells and of their derived tumours FRANCO RILKE, SILVANA PILOTTI, ANTONIO CARBONE, AND LUCIANO LOMBARDI
- Myotonia dystrophica with heart involvement: an electron microscopic study of skeletal, cardiac, and smooth muscle R. M. LUDATSCHER, H. KERNER, S. AMIKAM AND B. GELLEI
- A critical comparison of the value of pregnancy-associated α_2 -glycoprotein and carcinoembryonic antigen assays in patients with colorectal cancer C. B. WOOD, C. H. W. HORNE, C. M. TOWLER, R. W. BURT, J. G. RATCLIFFE, AND L. H. BLUMGART
- Human nails and body iron S. SOBOLEWSKI, A. C. K. LAWRENCE, AND P. BAGSHAW
- Sensitivity of immunoperoxidase and immunofluorescence staining for detecting chlamydia in conjunctival scrapings and in cell culture R. M. WOODLAND, H. EL-SHEIKH, S. DAROUGAR, AND S. SQUIRES
- Diagnosis of *Bacteroides fragilis* infection with counter-immunoelectrophoresis O. A. OKUBADEJO, N. F. LIGHTFOOT, AND W. G. HEWITT
- Serological diagnosis of *Bacteroides fragilis* infections by a complement fixation test CONSTANCE A. C. ROSS AND R. F. GILMORE
- Copies are still available and may be obtained from the PUBLISHING MANAGER, BRITISH MEDICAL ASSOCIATION, TAVISTOCK SQUARE, LONDON, WC1H 9JR, price £3.00, including postage
- Propionibacteria as a cause of shunt and post-neurosurgical infections P. R. SKINNER, A. J. TAYLOR, AND H. COAKHAM
- Pitfalls in the use of artificial substrates for the diagnosis of Gaucher's disease YOAV BEN-YOSEPH AND HENRY L. NADLER
- Platelet function, factor VIII, fibrinogen, and fibrinolysis in Nigerians and Europeans in relation to atheroma and thrombosis EVELYNE DUPUY, A. F. FLEMING, AND J. P. CAEN
- Failure of factor VIII inhibitor bypassing activity to secure haemostasis in haemophilic patients with antibodies D. H. PARRY AND A. L. BLOOM
- Ristocetin and the thrombin clotting time A. ARONSTAM, B. DENNIS, M. N. FRIESEN, W. F. CLARK, A. L. LINTON, AND R. M. LINDSAY
- Technical methods*
- A simple method for plasma exchange R. SLADE, J. REVILL, R. M. HUTCHINSON, AND J. K. WOOD
- A new approach to the preparation of bicarbonate solution for use in virus isolation media A. G. HIGGINSON AND R. L. C. PILE
- Myeloperoxidase cytochemistry using 2,7-fluorene-diamine I. BENAVIDES AND D. CATOVSKY
- Letter to the Editor
- Book reviews

Reports and Bulletins prepared by the Association of Clinical Biochemists

The following reports and bulletins are published by the Association of Clinical Biochemists. They may be obtained from The Publishing Department, British Medical Journal (ACB Technical Bulletins), B.M.A. House, Tavistock Square, London WC1H 9JR. Overseas readers should remit by British Postal or Money Order.

SCIENTIFIC REVIEWS (price £1.00/\$2.00 each)

- 1 The assessment of thyroid function March 1971
F. V. FLYNN and J. R. HOBBS
- 2 Renal function tests suitable for clinical practice
January 1972 F. L. MITCHELL, N. VEALL, and R. W. E. WATTS
- 3 Biochemical tests for the assessment of fetoplacental
function May 1975 C. E. WILDE and R. E. OAKLEY
- 4 Test of exocrine pancreatic function March 1977
A. H. GOWENLOCK

TECHNICAL BULLETINS (price £1.00/\$2.00 each)

- 22 Bilirubin standards and the determination of bilirubin
by manual and technicon AutoAnalyzer methods
January 1971 BARBARA BILLING, RUTH HASLAM, and N.
WALD
- 23 Interchangeable cells for spectrophotometers and
fluorimeters September 1971 S. S. BROWN and A. H.
GOWENLOCK
- 24 Simple tests to detect poisons March 1972 B. W.
MEADE *et al.*
- 25 Blood gas analysers May 1972 K. DIXON
- 26 Kits for enzyme activity determination September
1972 S. B. ROSALKI and D. TARLOW
- 27 Assessment of pumps suitable for incorporation into
existing continuous flow analytical systems November
1972 A. FLECK *et al.*

- 28 Routine clinical measurements of transferrin in
human serum September 1973 K. DIXON
- 29 Control materials for clinical biochemistry (5th
edition) September 1973 J. F. STEVENS
- 30 Notes on the quality of performance of serum
cholesterol assays September 1973 S. S. BROWN
- 31 Determination of uric acid in blood and in urine
July 1974 R. W. E. WATTS
- 32 A survey of amino acid analysers readily available in
the United Kingdom September 1974 J. E. CARLYLE and
P. PURKISS
- 33 Definitions of some words and terms used in auto-
mated analysis November 1974 A. FLECK, R. ROBINSON,
S. S. BROWN, and J. R. HOBBS
- 34 Measurement of albumin in the sera of patients
January 1975 LINDA SLATER, P. M. CARTER, and J. R.
HOBBS
- 35 Investigation of the validity of temperature correction
factors for serum aspartate and alanine transaminases
March 1975 S. B. ROSALKI *et al.*
- 36 Factors influencing the assay of creatinine November
1975 J. G. H. COOK
- 37 A survey of enzyme reaction rate analysers readily
available in the United Kingdom July 1977 R. A.
SAUNDERS and R. F. BURNS
- 38 Transport of specimens for clinical chemistry an-
alysis November 1977 P. WILDING, J. F. ZILVA, and
C. E. WILDE
- 39 A scheme for the evaluation of diagnostic kits May
1978 P. H. LLOYD

processing of the tissue obtained. Useful chapters are included on the interpretation of biopsy specimens and on the correlation of renal structure with function.

Pathologists called on to examine renal biopsies will find this a valuable slim book to add to those already by their microscope.

K. A. PORTER

Notice

Malignant lymphomas

An international course on Malignant Lymphomas, sponsored by the Boerhaave Committee for Postgraduate Medical Education of the University of Leiden, will be held in Noordwijkerhout, The Netherlands on 3-6 April 1979. The programme is designed for haematologists, immunologists, and pathologists with a special interest in diagnosis, clinical evaluation, and therapy of patients with malignant lymphomas. Enquiries should be addressed to: Secretariat of the Boerhaave Committee, University Medical Center, Rijnsburgerweg 10, Leiden, The Netherlands.

Correction

Paper by R. C. Curran and J. Gregory (Volume 31, page 974): in the legends to Figures 1, 2a, and 2b, ' γ heavy chain' should have read ' δ heavy chain.'

The members of the Editorial Board and the General Advisory Board are indebted to the following for their help with the assessment of papers during the year to 30 September 1978:

Volume 31: Subject index

Abbreviation:—'(L)' refers to letters to the Editor.

- Abetalipoproteinaemic plasma lipoproteins, chemical and kinetic study of, **382**
- Acanthamoeba culbertsoni* in case of amoebic meningoencephalitis, retrospective identification of, **717**
- Acetoacetate analysis on LKB 8600 Reaction Rate Analyser, **602**
- Achromobacter xylosoxidans*, cerebral ventriculitis associated with, **156**
- Acid-fast bacilli, staining of clinical specimens for, use of mechanical conveyor system (Cyto-Tek) for, **185**
- Acidic and neutral compounds, volatile, examination for, in gas liquid chromatography for detection of bacteriuria, **859**
- Acrylamide gel gradient electrophoresis, in study of case of type III hyperlipoproteinaemia, **599**
- ACTH syndrome, ectopic, clinicopathological correlations in, **591**
- Actin and microsomal antigen in gastric parietal cells, ontogeny of, **578**
- Adenomatous and hyperplastic parathyroid glands, histological comparison of, **626; 1254 (L)**
- Adenosine 3',5'-monophosphate and guanosine 3',5'-monophosphate, cyclic, urinary excretion in malignancy, **735**
- Alcohol and hypochlorite mixtures, sporicidal activity of, **148**
- consumption, blood cells and smoking habits, **654**
- Alkaline phosphatase and peroxidase for double labelling of cellular constituents, **454**
- — — — — for immunoenzymatic labelling of cellular constituents, **454**
- — — — — (EC 3.1.3.1) activity in plasma in adult population of Scottish new town (Cumbernauld), frequency distribution and 'reference values' of, **1202**
- Allografts, renal, human polyomavirus (BK) infection and ureteric stenosis in recipients of, **338**
- Alpha₁-antitrypsin. *See* α_1 -Antitrypsin
- Aminoglycosides, *E. coli* resistance to, specific and non-specific, **12**
- in cerebrospinal fluid, bioassay of, serum standards for, **172**
- Ammonia in perchloric acid supernate of blood or plasma, continuous-flow analysis with ammonia-selective electrode, **1207**
- Amoebae, free-living, pathogenicity of, cell cultures as indicator of, **1**
- Amoebic meningoencephalitis, *Acanthamoeba culbertsoni* in case of, retrospective identification of, **717**
- Anaemia, aplastic, marrow graft rejection and inhibition of growth in culture by serum in, **1244**
- , dyserythropoietic, congenital, with unusual cytoplasmic inclusions, **1228**
- , refractory, and giant lymph node hyperplasia of mediastinum, **757**
- Anaerobes, non-sporing, preliminary identification of, nalidixic acid strip method in, **806**
- Anaerobic bacteria, culture of, comparison of converted pressure cookers with conventional jars for, **426**
- blood culture media (L), **98**
- Anaerobiosis, incomplete, as cause of metronidazole 'resistance', **933**
- Analysers, LKB 8600 Reaction Rate, acetoacetate analysis on, **602**
- Anthocyanin BB as nuclear stain substitute for haematoxylin, **194**
- Antibasement membrane antibody, spontaneously occurring, characterisation of, **639**
- Antibiotic sensitivity discs as primary antibiotic standards in minimum inhibitory concentration determination, **855**
- Antibiotics, polyene, in assessment of significance of anti-streptolysin O activity, **230**
- , resistance to, acquisition by *Staph. aureus* in skin patients, **1187**
- , sensitivity testing with Sensititre system, **531, 536**
- Antibodies and antigens, viral, in hepatitis B infection, **681**
- , cytomegalovirus-specific, in serum, detection of, comparison of complement fixation, indirect immunofluorescence for viral late antigens, and anti-complement immunofluorescence tests for, **827**
- , humoral, to candida and pathogenic yeasts, prevalence in diabetics, **840**
- , IgM, dithiothreitol for inactivation of, evaluation of, **1152**
- , rubella haemagglutination-inhibition and virus-specific IgM, detection by HAI test with trypsin-treated human group O erythrocytes, **730**
- to factor VIII, haemophiliacs with, failure of FEIBA to secure haemostasis in, **1102**
- Antibody, rubella, estimation of, comparison of radial haemolysis with haemagglutination inhibition in, **479**
- , —, measurement by single radial haemolysis technique, evaluation of, **521**
- , —, radial haemolysis in detection of, assessment of, **35**
- to basement membrane, spontaneously occurring, characterisation of, **639**
- to *Candida albicans*, radioimmunoassay determination of levels in healthy and hospitalised adults, **1161**
- to hepatitis B core antigen, detection of, routine use of counterimmunoelectrophoresis for, **832**
- — — — — in acute hepatitis, significance of, **1140**
- — — — — surface antigen in haemophiliacs on long-term therapy with Scottish factor VIII, **309**
- to rotavirus, fluorescent, method for detection of, and use in sero-epidemiology (L), **393**
- Anti-complement immunofluorescence test for detection of cytomegalovirus-specific serum antibodies, comparison with complement fixation test and indirect immunofluorescence test for viral late antigens, **827**
- Antigen, carcinoembryonic, assay in colorectal cancer, comparison with pregnancy-associated α_2 -glycoprotein assay, **1065**
- , e. *See* e antigen
- , hepatitis B core, antibody to, detection of, routine use of counterimmunoelectrophoresis for, **832**
- , —, surface. *See* Hepatitis B surface antigen
- , microsomal, and actin in gastric parietal cells, ontogeny of, **578**
- Antigens and antibodies, viral, in hepatitis B infection, **681**
- , *Echinococcus granulosus*, most immunoreactive (antigens 4 and 5), in hydatid fluids, specific quantification of, **475**
- , hepatitis B, in primary hepatic carcinoma, immunofluorescence study on fixed liver tissue, **1133**
- , polysaccharide. *See* Polysaccharide antigens
- Antiglobulins, rheumatoid factor, in serum, direct binding assay with fluorescein-labelled Fc fragment of human immunoglobulin-G, **963**
- Antilymphocyte globulin, crossreaction with human granulocyte colony-forming cells, **129**

- Antiseptics, sensitivity of urine-grown cells of *Providencia stuartii* to, **929**
- Antistreptolysin O activity, significance of, assessment by polyene antibiotics, **230**

- failure secondary to cirrhosis or fulminant hepatic failure, spectrum of renal tubular damage in, **101**
- function and urinary free corticosteroid excretion, **671**
- Respiratory tract, upper, and ear, bacterial flora of, in saturation divers, **721**
- , —, bacteria of, survival on cotton-wool swabs, **430**
- R-factor mediated trimethoprim resistance, two 3-month clinical surveys of, **850**
- Rheumatoid factor, IgM-class, interference in solid-phase radioimmunoassay of rubella-specific IgM antibodies, **483**
- serum antiglobulins, direct binding assay with fluorescein-labelled Fc fragment of human immunoglobulin-G, **963**
- Ristocetin and thrombin clotting time, **1106**
- Romanowsky stain, standardised, staining properties and stability of, **280**
- Rotavirus, fluorescent antibody to, method for detection of, and use in sero-epidemiology (L), **393**
- Rotaviruses in stools, diagnosis of, **175**
- Rubella antibody estimation, comparison of radial haemolysis with haemagglutination inhibition in, **479**
- measurement by single radial haemolysis technique, evaluation of, **521**
- , radial haemolysis in detection of, assessment of, **35**
- haemagglutination-inhibition and virus-specific IgM antibodies, detection by HAI test with trypsin-treated human group O erythrocytes, **730**
- specific IgM antibodies, solid-phase radioimmunoassay of, interference of IgM-class rheumatoid factor in, **483**
- Salmonella isolation with standardised inoculum and rotary plating technique, **904**
- Salt solution, low ionic strength, in compatibility testing (L), **1116**
- ⁷⁵Se-Selenofolate radioassay measurement of red cell folate, **47**
- Sensititre system for determination of antibiotic sensitivities, **531, 536**
- Sero-epidemiology, use of method for detection of fluorescent antibody to rotavirus in (L), **393**
- Serological evidence of HBsAg undetectable by conventional radioimmunoassay in anti-HBc positive blood donors, **837**
- Serum antibodies, cytomegalovirus-specific, detection of, comparison of complement fixation, indirect immunofluorescence for viral late antigens, and anti-complement immunofluorescence tests for, **827**
- bile acids in hyperlipidaemia, **58**
- elastase and inhibitors in blood of heavily burnt patients, **866**
- ferritin, radioimmunoassay of, **742, 872**
- folate *Lactobacillus casei* assay, effect of Tween 80 on incubation period of, **227**
- from freshly donated blood and selected blood products, hepatitis B surface antigen detection in, comparison of radioimmunoassay and enzyme immunoassay for, **1000**
- immunoglobulin levels before and after splenectomy in homozygous β-thalassaemia, **546**
- inhibition of marrow culture growth and marrow graft rejection in aplastic anaemia, **1244**
- lysozyme activity and thermolability in inflammatory bowel disease, **39**
- rheumatoid factor antiglobulins, direct binding assay with fluorescein-labelled Fc fragment of human immunoglobulin-G, **963**
- samples, mass screening for HBsAg of, multiple sampling device for, **288**
- standards for bioassay of aminoglycosides in cerebrospinal fluid, **172**
- total lipids, lipoprotein cholesterol, and apolipoprotein A in acute viral hepatitis and chronic liver disease, **772**
- Sézary syndrome and mycosis fungoides, **1016**
- , small-cell, with null-cell features, case of (L), **501**
- Shandon Elliott and Cytotek staining machines, problems of cross contamination of cytological smears, **63**
- Shunt and postneurosurgical infections, propionibacteria as cause of, **1085**
- Skin flora, transient, removal by cleansing or disinfection in relation to mode of deposition, **919**

- , normal, immunoglobulin and complement in, **1143**
 — patients, *Staph. aureus* in, acquisition of antibiotic resistance by, **1187**
 Smoking habits, blood cells and alcohol consumption, **654**
 Sodium sulphadiazine and sodium fusidate, comparative susceptibility of *Neisseria meningitidis* in vitro to, **355**
 Spain, pneumonic illnesses due to Legionnaires' disease agent acquired in, pathology of 5 Scottish deaths from, **809**
 Sphincter, internal, and haemorrhoids, pathological study of, **268**
 Spleen, atrophy of, myelofibrosis, and myeloma paraproteinemia associated with haemangioendothelioma after parenteral thorotrast administration, **1125**
 —, lipidosis of, after administration of intravenous fat emulsions, **765**
 Splenectomy in homozygous β -thalassaemia, serum immunoglobulin levels before and after, **546**
 Spores, quantitative recovery from thermophilic spore papers, **423**
 Sporocidal activity of alcohol and hypochlorite mixtures, **148**
 Sputum and CSF, aberrant form of *Ps. aeruginosa* in, infection in compromised patient due to, **351**
 —, laboratory examination of, evaluation of methods, **724**
 —, malignant cells in, detection of, mucolytic agent (Cytoclear) in preparation of cell material for, **585**
 —, *Staph. aureus* isolation from, in cystic fibrosis, **913**
 Squamous carcinoma of breast, **116**
 Staining machines, automated, and bulk manual staining procedures, problems of cross contamination of cytological smears, **63**
 —, nuclear, anthocyanin BB as substitute for haematoxylin in, **194**
 — of clinical specimens for acid-fast bacilli using mechanical conveyor system (Cyto-Tek), **185**
 Stains, Romanowsky, standardised, staining properties and stability of, **280**
 Staphylococcal colonisation of newborn, effect of bacterial flora, **153**; **1254** (L); **1255** (L)
 Staphylococci, phagocytosis and killing of, by polymorphonuclear and mononuclear leucocytes, **539**
 — testing for sensitivity to methicillin and cephradine, use of polyvinylpyrrolidone in, **434**
Staphylococcus aureus in skin patients, acquisition of antibiotic resistance by, **1187**
 — — isolation from sputum in cystic fibrosis, **913**
 — — penicillin resistant strains, penicillinase production by, paper-strip method for detection of, **388**
 — *saprophyticus* infection of urinary tract in young women, **348**
 Sterilisation in laboratory autoclave using direct air displacement by steam, **144**
 —, surgical, by tubal diathermy, myometrial vascular damage after, **633**
 Stools, rotaviruses in, diagnosis of, **175**
 Streptococci group D, carriage in bowel, **1182**
 —, —, differentiation of, pyruvate fermentation test in comparison with tetrazolium reduction for, **692**
Streptococcus viridans endocarditis, detection of antibodies against viridans streptococci in, immunofluorescent method for, **292**
 Streptokinase activated lysis time as screening test for reduced fibrinolytic activity of plasma, **54**
 Substrates, artificial, for diagnosis of Gaucher's disease, limitations of, **1091**
 Sudden infant death syndrome, muscle changes in pulmonary arterioles and arteries in (L), **198**
 Sulphamethoxazole and trimethoprim activity, effect of thymidine, **165**
 Sulphonamide and trimethoprim, synergy between, in presence of pus, **162**; **700** (L)
 Syphilis, congenital, in aborted second trimester fetus, diagnosis by histological study, **265**
 Tamm-Horsfall protein in glomerular capsular space, **620**
 Technicon Autocounter, platelet counting with, improved methods for, **390**
 Tetrazolium reduction test in differentiation of group D streptococci, comparison with pyruvate fermentation, **692**
 Thalassaemia trait, diagnosis from platelet count and England's discriminant function (L), **500**
 β -Thalassaemia, homozygous, serum immunoglobulin levels before and after splenectomy in, **546**
 Thorium dioxide in liver cells, identification by electron microscopic x-ray microanalysis, **893**
 Thorotrast administration, parenteral, haemangioendothelioma with myelofibrosis, splenic atrophy, and myeloma paraproteinemia after, **1125**
 Thrombin clotting time and ristocetin, **1106**
 Thrombocytopenic purpura, idiopathic, chronic, platelet aggregation in, **1239**
 Thrombosis and atheroma, platelet function, factor VIII, fibrinogen, and fibrinolysis in Nigerians and Europeans in relation to, **1094**
 Thymidine, effect on trimethoprim and sulphamethoxazole activity, **165**
 — mutants (L), **808**
 Thyroid diseases, autoimmune, rapid diagnosis of, evaluation of two haemagglutination tests for, **1147**
 —, tumours of, anaplastic, cell receptor studies on, **461**
 Tissue transport-medium (Histocoon) in preservation of tissue-fixed immunoglobulins and complement for direct immunofluorescence, **823**
 Tonsil, immunoglobulin in cryostat and paraffin sections of, demonstration by immunofluorescence and immunoperoxidase techniques, **974**; *Erratum*, **1257**
 Transferrin, ⁵⁵Fe-labelled, in measurement of plasma volume, **196**
 —, ferritin and lactoferrin distribution in tissues, **316**
 Trimethoprim and sulphamethoxazole activity, effect of thymidine, **165**
 — and sulphonamide, synergy between, in presence of pus, **162**; **700** (L)
 — resistance mediated by R-factor, two 3-month clinical surveys of, **850**
 Trypsin-treated human group O erythrocytes in HAI test for detection of rubella haemagglutination-inhibition and virus-specific IgM antibodies, **730**
 Tubal diathermy, surgical sterilisation by, myometrial vascular damage after, **633**
 Tumour, carcinoid, of uterine cervix, **990**
 Tumours derived from lymphatic cells, morphology of, **1009**
 —, intracranial, remote metastases from, **794**
 — of thyroid, anaplastic, cell receptor studies on, **461**
 Tween 80, effect on incubation period of *Lactobacillus casei* assay of serum folate, **227**
 Umbilical cord, appearance at birth and water content, studies of, **944**
 Ureter, stenosis of, and human polyomavirus (BK) infection in renal allograft recipients, **338**
 Uric acid assay, automated, **93**
 Urinary cytology, filter imprint method for, **999**
 — excretion of cyclic adenosine 3',5'-monophosphate and cyclic guanosine 3',5'-monophosphate in malignancy, **735**
 — free corticosteroid excretion and renal function, **671**
 — glycosaminoglycan excretion in disseminated neoplasm, **447**
 — tract infection, urine xanthine oxidase activity in, **444**
 — — with *Staphylococcus saprophyticus*, etc., in young women, **348**

- Urine, *Providencia stuartii* cells grown in, sensitivity to antiseptics, **929**
—— test, sensitive, for monitoring ingestion of isoniazid (L), **97**
- Ventriculitis, cerebral, associated with *Achromobacter xylosoxidans*, **156**
- Viral antigens and antibodies in hepatitis B infection, **681**
—— hepatitis, acute, and chronic liver disease, serum total lipids, lipoprotein cholesterol, and apolipoprotein A in, **772**
—— transport media, comparison of (L), **500**
- Virus isolation media, preparation of bicarbonate solution for use in, **1112**
- Vitamin B₁₂ and folate deficiency, haemoglobin A₂ levels in, **960**
- Water content and appearance at birth of umbilical cord, studies of, **944**
- Xanthine oxidase activity in urine in urinary tract infection, **444**
- Yeasts, pathogenic, and humoral antibodies to candida, prevalence in diabetics, **840**

Broadsheets prepared by the Association of Clinical Pathologists

- 31** Investigation of haemorrhagic states with special reference to defects of coagulation of the blood 1961 (Revised 1967) E. K. BLACKBURN
- 33** The laboratory detection of abnormal haemoglobins 1961 H. LEHMANN and J. A. M. AGER (revised 1975 by H. Lehmann and R. G. Huntsman as The laboratory detection of haemoglobinopathies)
- 39** Investigation of haemolytic anaemia 1961 (Revised 1968) J. G. SELWYN
- 41** Serological test for syphilis (Revised 1969) A. E. WILKINSON
- 42** Determination of red cell enzymes (Revised 1970) C. A. WEST and T. A. J. FRANKERD
- 43** Mycological techniques 1962 (Reprinted 1966) R. W. RIDDELL
- 53** Preparation of sections from bone marrow biopsies 1966 A. G. SIGNY and D. ROBERTSON SMITH
- 54** The investigation of blood transfusion reactions 1966 (Revised 1974) G. H. TOVEY and W. A. GILLESPIE
- 55** Antibiotic sensitivity tests by diffusion methods 1966 (Revised 1972) E. JOAN STOKES and PAMELA M. WATERWORTH
- 56** Haemoglobinometry by the cyanmethaemoglobin method 1967 S. M. LEWIS
- 57** Compatibility test for blood transfusion 1967 G. H. TOVEY and W. J. JENKINS
- 59** Techniques for the histological examination of the eye 1967 N. ASHTON
- 61** Screening tests for inborn errors of amino acid metabolism 1967 D. C. CUSWORTH
- 62** Preparation of undecalcified bone sections 1968 H. A. SISSONS
- 63** Tests of combined bactericidal action 1969 L. P. GARROD and PAMELA M. WATERWORTH
- 64** Histochemical enzyme techniques 1969 I. M. P. DAWSON and M. I. FILIPE (This Broadsheet is illustrated by eight colour transparencies which can be obtained from Dr J. Burston, Department of Histopathology, Central Laboratory, St Mary's General Hospital, Milton Road, Portsmouth PO3 6AG. Price £3.00, including postage.)
- 65** The immunofluorescent test for serum antinuclear factor 1969 E. L. HOLBOROW and G. D. JOHNSON
- 66** Cytological techniques for serous fluids 1970 A. I. SPRIGGS and O. A. N. HUSAIN
- 67** The laboratory investigation of muscular dystrophy 1970 V. DUBOWITZ, J. N. WALTON, B. P. HUGHES, and J. N. CUMINGS
- 68** Simplified radial immunodiffusion 1970 J. R. HOBBS
- 69** Immunofluorescence techniques in immunopathology and histopathology 1971 J. SWANSON BECK
- 70** (Revised Broadsheet 36) Quantitative determination of porphobilinogen and porphyrins in urine and porphyrins in faeces and erythrocytes 1971 C. RIMINGTON
- 71** The British comparative thromboplastin: The use of the national thromboplastin reagent for uniformity of laboratory control of oral anti-coagulants and expression of results 1970 L. POLLER
- 72** The preparation of ultra-thin sections for light microscopy 1970 C. E. LUMSDEN and S. R. APARICIO
- 73** Nervous system techniques for the general pathologist 1970 J. HUME ADAM and LEONARD MILLER
- 74** Techniques for chromosomal analysis 1971 SYLVIA D. LAWLER
- 75** Quality control in haematology 1973 I. CAVILL and A. JACOBS
- 76** A guide to the choice of optical equipment and reagents for immunofluorescence techniques 1973 C. E. D. TAYLOR, A. H. TOMLINSON, and G. V. HELMER
- 77** Diagnosis of vitamin B₁₂ deficiency 1973 I. CHANARIN
- 78** Radioisotopic assay of vitamin B₁₂ in serum 1973 J. L. RAVEN and P. BARKHAN
- 79** Diagnosis of folate deficiency 1973 A. H. WATERS and D. L. MOLLIN
- 80** Estimation of bacteria and white cells in the urine 1973 W. BRUMFITT, A. PERCIVAL, and J. D. WILLIAMS
- 81** Blood culture technique 1974 E. JOAN STOKES
- 82** Estimation of catecholamine metabolites in urine 1974 M. SANDLER and C. R. J. RUTHVEN
- 83** Platelet function tests 1975 J. H. SANDERSON
- 84** Methods for estimating oestrogen in urine from pregnant women 1977 R. E. OAKEY
- 85** Mycological Techniques 1977 RONALD W. RIDDELL, YVONNE M. CLAYTON and HOWARD J. WINGFIELD
- 86** Photomicrography 1977 R. S. FAWKES and A. C. LENDRUM
- 87** Estimation of plasma cholinesterase activity and the use of inhibitors for the determination of phenotypes 1977 MARY WHITAKER
- 88** Examination of cerebrospinal fluid protein 1978 G. H. GRANT
- 89** Handling and clinical use of blood products 1978 JOHN WALLACE and JOHN F. DAVIDSON
- Notes on sterilization No. 1 Sterilization and disinfection of cytoscopes 1967*
Notes on establishment of a hospital radioactive tracer service 1969
Reprint No. 1 (J. clin. Path., 22, 383)
The histology and cytology of changes in the epithelium of the cervix uteri 1969 A. D. T. GOVAN, R. M. HAINES, F. A. LANGLEY, C. W. TAYLOR, and A. S. WOODCOCK
Reprint No. 2 (J. clin. Path., 24, 159)
The perinatal postmortem examination 1971 F. A. LANGLEY
Reprint No. 3 (J. clin. Path., 27, 590)
The use of SI units in reporting results obtained in hospital laboratories 1974 D. N. BARON, P. M. G. BROUGHTON, M. COHEN, T. S. LANSLEY, S. M. LEWIS, and N. K. SHINTON

Prices

INLAND One copy, £1.00; 2-10 copies (of any one broadsheet or reprint), 80p each; 11-100 copies (of any one), 60p each; 101 plus copies (of any one), price to be agreed; Authors (over 50 free copies), 60p each.

OVERSEAS One copy, \$2.00; 2-10 copies (of any one broadsheet or reprint), \$1.60; 11-100 copies (of any one), \$1.20; 101 plus copies (of any one), price to be agreed. Authors (over 50 free copies), \$1.20. Prices include postage but air mail will be charged extra. Trade discount 10%.

All orders (and all changes of address of regular subscribers) should be sent to the Publishing Manager, *Journal of Clinical Pathology*, BMA House, Tavistock Square, London, WC1H 9JR.
