CALENDAR OF EVENTS

Combined adult and congenital cardiovascular pathology course

29 November–1 December 2006, Royal Brompton & Harefield NHS Trust, London, UK.

This “hands-on” course approaches in detail the problems that face the diagnostic pathologist when dealing with cardiovascular pathology, both congenital and adult. The approach to a cardiac autopsy and sudden death will be emphasised. Cardiac specimens will be made available for analysis and there will also be video demonstrations. A slide seminar with slides is included. The course is aimed at

trainees studying for the MRC PATH, and also at senior pathologists who wish to update their knowledge. The course fee is £400 (including coffee, tea and lunch). There is a special fee of £300 for junior doctors in training.

Further details: Short Course Office, National Heart and Lung Institute, Dovehouse Street, London SW3 6LY, UK; Tel: +44 (0)20 7351 8172; Fax: +44 (0)20 7351 8246; Email: shortcourse.nhli@ic.ac.uk

CORRECTIONS

doi: 10.1136/jcp.2005.035212corr1

Several errors occurred in figure 1 of the review article in the last issue of the journal

(Smellie WSA, Forth J, Sundar S, *et al.* Best practice in primary care pathology: review 4. *J Clin Pathol* 2006;59:893–902.). A corrected version is available on our website at <http://jcp.bmjjournals.com/supplemental/>

doi: 10.1136/jcp.2005.033944.corr1

We regret that there was an error in the August issue (Smellie WSA, Forth J, Bareford D, *et al.* Best practice in primary care pathology: review 3. *J Clin Pathol* 2006;59:781–9.) On p784, lines 1–2, “bone marrow” should have been replaced by “point of care glucose test (BM)”. We apologise for this error.
